Life Is On

Schneider
Electric

A range like no other

Everyday exceptional

Add a little something extra to daily life with **Unica**.

No matter the preferences of your customers, the new Unica range of wiring devices has styles and functions to complement their lifestyles.

Crafted with the latest aesthetic trends in mind, with an array of sophisticated materials including metal, slate, glass, and more, Unica products are made to win hearts and turn heads.

Everyday, your way

For Unica, flexible functionality is as important as style.

With user-friendly designs and a broad assortment of functions, Unica helps make homes more comfortable and convenient for everyday life.

And for clients interested in smart home technology, Unica devices are connectivity ready. They're compatible with Wiser, our smart, sustainable home technology and can be controlled with KNX automation devices.

Made for generations

Unica products are designed and manufactured with attention to sustainability and quality at every stage of the product lifecycle.

At the design stage, the devices are made easily dismantlable to facilitate recycling.

At the manufacturing stage, more than 50% of the raw material used for our devices comes from recycled sources and 100% of the material is internally reused to generate zero waste.

At the packaging stage, we're taking steps to optimize product packaging sizes and materials to avoid waste.

Bearing the Green Premium ecolabel, Unica products exceed the sustainability standards of the industry.

Quality that lasts

Manufactured in Schneider Electric's Puente la Reina smart factory in Spain, a center of excellence and expertise for wiring devices, Unica products meet the highest quality standards. They deliver the high reliability, durability, and aesthetics which are signature for the brand.

Impressive results

With Unica, you can create interior designs polished to the last detail. Interiors that resonate with your customers' personalities. Explore what the range has to offer and get inspired for your next projects.

Unica Studio

Add character to interiors with signature rounded frames.

Enjoy timeless, universal design

The Unica Studio range gives you a selection of frames to easily match different types of interiors, from minimalist to traditional. Made from high-performance thermoplastic, they're robust and long lasting.

The Unica Studio range comes in two versions. **Single-volume frames** are available in solid colors (white, beige, aluminum, and anthracite).

The double-skin version has frames composed of a colored or metal layer over a white, beige, or anthracite base (see Unica Studio Color and Unica Studio Metal).

Unica Studio
Aluminium

Single-volume frames

The white and beige frames have a mirror-polished surface for a nice glossy finish and are a perfect fit for lighter interiors with brighter wall colors.

The anthracite and aluminum finishings work for darker interiors or as bold color accents. The anthracite frames have a soft-touch perception, while the aluminum ones add a bit of shine.

Unica Studio Color

Invigorate any room with a splash of color.

With nine colors available – from soft and light, to bold and lively – the Unica Studio Color range offers a hue to complement any décor or style. Add to that a modern shape and smooth, curved surface, and you get perfect switches for energetic interiors.

Unica Studio Color double-skin frames have metallic particles added to the two layers of paint to add depth to the colors and create a more dynamic appearance.

Unica Studio Outline

Enrich your designs with a subtle color accent.

The Unica Studio Outline frames come in neutral white with a touch of color added by a delicate outline on the frame. Ten outline colors, from vibrant yellow to moderate grey and taupe, give you a broader palette to elevate interior designs while keeping them well balanced.

Dark aluminium

The frames are made of sheet metal with an anodized finishing to create a bright smooth surface. An additional high-resistance treatment helps ensure a lasting look by minimizing the impact of aging and environmental conditions.

Unica Pure

Find a match for elegance and sophistication.

Exquisite materials – wood, slate, glass, rubber, metal – provide an array of finishings fit for premium interiors.

The Unica Pure frame rests on a sculpted ledge – white or anthracite depending on the tone of the faceplate – to create an interesting and captivating look.

White

Unica Pro
Aluminium

Unica Pro
Anthracite

The Unica Pro range provides the perfect balance of style and functionality. Its signature design, with a ring surrounding the frame, makes the frames stand out from the wall and adds a smooth, light perception to them.

Available in white, aluminum, and anthracite, Unica Pro frames satisfy all essential style needs.

 Antibacterial

The Unica Pro range also includes a white antibacterial finish for those mindful of hygiene and safety (find out more in the “Antibacterial for greater peace of mind” section).

Unica leaves nothing to be desired

The new Unica range includes all the wiring devices you need to enhance the style, comfort, and safety of your customers' homes. From lighting control to entertainment system connections and smart home functions, Unica is ready to meet your clients' current and future needs.

Lighting control

Automatic light control with motion sensors improves safety and energy efficiency.

Rotary and pushbutton dimmers, compatible with both conventional and LED lighting, help easily adjust the ambiance.

Connectivity-ready switches, dimmers, and motion sensors can be easily integrated with the Wiser smart home system. A wireless Free Located switch can be used with Wiser to control lights and shutters from anywhere.

Shutter control

Manual-at-a-push control or fully automatic via a time controller increases convenience.

Shutters can also protect home interiors from excessive sunlight and help discourage unwanted interest from strangers.

Temperature control

Unica thermostats can set a temperature and maintain it at a comfortable level as the outside temperature fluctuates, while also helping to reduce energy costs.

A worldwide range

To cater to different standards worldwide and diverse homeowner needs, Unica provides a broad selection of socket outlets.

All socket outlets have integrated child protection. The self-sealing shutters sit behind the electrode holes and close when the plug is removed, reducing the risk of a child inserting something into the holes.

Socket outlets for diverse needs and standards

Unica features standard socket outlets with lid and surface socket outlets that provide high aesthetics and prevent dust allocation inside the outlet. For extra safety, socket outlets with surge protection are available. The IP44 devices can be used outdoors (see the “Robust and weather-resilient” section). The range features socket outlet versions available in almost all of the local standards (see Unica catalog for the full collection).

Side earth socket with USB

Technology that connects

With an array of devices facilitating connectivity, Unica helps ensure your customers can use digital technologies in every corner of their house, without having to worry about low battery levels or network reach.

USB chargers

USB chargers include a quick charging option up to 18 W (3 A), with type A and type C ports which can charge a battery up to 75 percent in as little as 30 minutes.

Connect to your world

The Wi-Fi repeater makes the internet available throughout the house. The range also includes R/TV sockets, RJ45 inserts and central plates as well as HDMI sockets to neatly connect HDTV and AV components.

Robust and weather-resilient

With Unica, you can provide convenient power access and connectivity even outdoors.

Outdoor devices

From IP44 switches and sockets to IP55 frames and compatibility with Mureva boxes, the range has devices to fit a balcony, a terrace, or a garden.

Make homes smart and sustainable with Wiser and Unica

By choosing connected Unica devices and integrating them into the Wiser smart home system, you can offer your customers enhanced comfort, energy savings, and greater safety.

Wiser allows homeowners to conveniently control lighting, shutters, heating, and more, both locally and remotely, through the Wiser by SE app, voice assistants, or the Unica Free Located Switch.

Wiser is compatible with Amazon Alexa™, Google Assistant™, and Apple's Siri®.

Moments

Wiser helps personalize a home by creating scenarios that combine several settings. For example, switching off all the lights and closing all the shutters for a Sleep Moment. A pre-set moment can be activated with just one tap in the Wiser by SE app or a voice command.

Automations

Moments can activate automatically at a scheduled time or when predefined conditions are detected. For example, lights can be switched off in a room when no presence is detected for 10 minutes.

Notifications

Wiser keeps homeowners aware of what's going on at home, even when they're away; the system sends notifications when issues are detected, such as water leakages or open windows or doors.

Safety and security

Lights, shutters, and appliances

Temperature

Energy

Introduce your customers the benefits of Wiser living

Wiser gives homeowners a convenient way of managing home settings and adjusting them to their preferences. The system also helps spot and cut energy waste and protect homes from potential intruders, faults, or simple forgetfulness.

Greater comfort

Welcome moment

“My home ‘Welcomes’ me as soon as I open the door. Lights on, shutters up, and my favorite music on.”

Voice control

“When my hands are full, a voice assistant turning on the lights for me is a blessing.”

Cinema moment

“One tap and the perfect mood is set: dimmed lights, closed shutters, and a cozy temperature.”

Enhanced safety

Presence simulation

“When I’m away, Wiser simulates my presence at home with lights on and shutters open at pre-set times.”

Remote control

“Did I switch off the iron this morning? No worries, I can just check the Wiser app.”

Peace of mind

“I feel safer knowing Wiser will notify me about a water leakage so I can turn all nearby sockets off.”

Energy savings

Appliance control

“After I leave home, I can easily turn off non-essential electrical appliances with one click not to waste energy.”

Automations

“Kids forget about everything! Fortunately, Wiser turns off the lights and A/C when it detects no presence in the room or a window is open.”

Protection from external conditions

“I use the ‘Summer’ moment to automatically close the shutters during the sunny hours to optimize energy use on cooling.”

Antibacterial for greater peace of mind

For where hygiene is especially important, like a baby’s room or the kitchen, the Unica range provides devices with antibacterial properties.

To enable these properties, the raw plastic material has been enriched with silver ions. All external surfaces of devices are made from antibacterial material that’s fully compliant with the latest international standard, ISO 22196:2011*.

Silver ion technology

Silver ions act as a long-term barrier against bacteria, stopping their growth and spread.

87%

of tested bacteria gone after 8 hours*

22196:2011

* Testing done by an external laboratory. As per ISO 22196:2011 requirement, the microorganisms tested were Escherichia coli and Staphylococcus aureus.

Unique in the market, the antibacterial range includes a wide variety of functions, from regular switches and sockets, to connected devices. What’s more, you don’t have to compromise on aesthetics for greater safety. The range features the same elegant design as the regular white Unica devices.

All products have the antibacterial logo visible.

Switch

Universal dimmer

Shutter control

Push button with label holder

Side earth socket

Other functions also available in the antibacterial finishing

Expand your possibilities with the new Unica range

Take advantage of Unica’s comprehensive collection of styles and functionalities to meet – and exceed – your clients’ expectations.

With Unica, you’ll find a complementary range for any space and décor. And you can offer something more, like energy savings, thanks to connected functionalities compatible with smart home systems like Wiser and KNX.

Simple yet exceptional, Unica wiring devices help you deliver truly unique home designs with future-ready comfort and convenience.
